GENERATION PMTO INFORMATION LEAFLET

Support for parents and carers

BARNARDOS

What is Generation Parent Management Training Oregon (GenPMTO)?

GenPMTO is a groundbreaking programme arriving in the UK, for parents and carers who might need a helping hand. It equips parents with practical tools to foster positive growth in their children to help make sure their children can thrive.

8-14
year olds

Who's it for?

GenPMTO is tailored for parents and caregivers with children aged 8-14 who may be at risk of serious youth violence. If their child lives or attends school in Brent, Barking and Dagenham, or Tower Hamlets, this programme is for them!

How does it work?

GenPMTO offers practical strategies to reduce conflicts and build stronger family connections. Through group sessions, parents learn effective techniques to prevent and address behaviour problems in children and teens.

GenPMTO recognises the critical role parents play in shaping their children's lives. Their data shows that parents are the agents when it comes to changing childhoods and changing lives.

14-Week
programme
